## 2024\_28\_III\_OOPS Using Java Lab

### 2028\_REC\_OOPS using Java\_Week 2\_Q7

Attempt : 1  
Total Mark : 10  
Marks Obtained : 10

#### Section 1 : Coding

##### 1. Problem Statement

You are taking part in a coding challenge where your task is to design a program that conjures a mesmerizing numerical pyramid pattern. The enchanting pattern is fashioned using a for loop and is customized based on user input.

Participants are prompted to unveil the pyramid's magic by specifying its height - essentially dictating the number of rows in this spellbinding creation.

Write a program that employs to weave this captivating numerical pyramid as shown below.

Example

Input:

4

Output:

### ***Input Format***

The input consists of a positive integer n representing the number of rows in the pattern.

### ***Output Format***

The output prints the required pyramid pattern, as shown in the sample output.

Refer to the sample output for the formatting specifications.

### ***Sample Test Case***

Input: 4

Output: 1

123

12345

1234567

### ***Answer***

```
import java.util.Scanner;
class Main{
    public static void main(String args[]){
        Scanner scan=new Scanner(System.in);
        int n=scan.nextInt();
        int m=1;
        int h=n;
        for(int i=1; i<=n; i++){
            int p=1;
            for(int k=h-1; k>=0; k--){
                System.out.print(" ");
            }
            h--;
```

```
for(int j=1; j<=m; j++){  
    System.out.print(p);  
    p++;  
}  
System.out.println("");  
m+=2;  
}  
}  
}
```

**Status :** Correct

**Marks :** 10/10
